

U.S. Gasoline RVP Requirements for summer 2024 (May 1-Sep. 15 at terminal and June 1 to Sep. 15 at retail)*

*ASTM 4814. 1/ This map is not intended to provide legal advice or to be used as guidance for state and/or federal fuel requirements. API makes no representations or warranties, express or otherwise, as to the accuracy or completeness of this map. 2/ Data sources include ASTM D4814, U.S. EPA, State Implementation Plans (SIPs), and state code or regulation. 3/ As a result of EPA's streamlining rule, during the summer RVP season (May 1 to Sep. 15), there is little distinction between RFG and conventional gasoline, with exception to RVP. MN does not allow 1 psi waiver for ethanol outside of the summer season, MN does allow for compliance with base gasoline or blended gasoline meeting ASTM D4814.
